

1 My Values

The proper fruit of knowledge is action! There is ONE value that every human being on Earth needs and wants more than sex and money: UNCONDITIONAL APPRECIATION!

2 My Values

Love that presupposes unconditional love in 'the other'. Our being first and foremost is to give the other person courage to engage in his or her own life as the person he or she is. The fruits of this are equality, subservience, sharing. My motivation is a four letter word - HOPE! My life IS in giving life and confirming hope: Sharing our knowledge today that transformation WILL happen when we share our knowledge and always provide the encouragement and opportunity for people to use it in their own lives!

3 My Thinking

Learning is learning from experience: Learning is learning together. I am interested in how we learn together. The prerequisite for ALL learning is how we THINK about LEARNING. Hence my passion and research interests is to encourage growth mindset environments for everyone to grow in.
