## Living Theory Research

- My doctoral research is living-theory-based s
- it's organic because it's about people. It's
- enough tweek with the amortional
- neopie I work with (i.e. emotionar,

## My values

Social Justice Peace Ethics Minimum

My life and my profession are about carrying these values into my work as a living theory development economist with the remit of turning them into practice and thus supporting people in building a society where the most vulnerable are included in

## Living Theorist Development Economist

it means to be able to live my values fully and be able to transfer them to my professional life without incoherency for the sake of human development and

for a fairer world
