Thursday, November 22nd
12.15-1.05 in room 3WN 3.8

Thursday, December 6th
12.15-1.05 in room 3WN 3.8

The conversations will focus on our diverse stories of what we are doing and trying to do as individual members of staff, members of OMNIBUS or Alumni of the University, to make the University of Bath what it is to today.

The conversations will include contributions from people who have been researching their own practice as they work at living the values that give meaning and purpose to their lives as fully as possible.

Do come along and share your experiences of working at the University and your stories of influencing your own learning, the learning of others and the learning of the social formation of the University.
