#### IDENTITY:

My name is Awongiwe Magutywa. I graduate from Nelson Mandela University with a National Diploma in Logistics Management. I am currently working as an intern at the HoC, assisting with administrative tasks and I am looking forward to expanding my knowledge in all aspects, getting to learn and focus on the importance of community engagement as the project also focuses in ensuring the development of communities and dealing with issues such as GBV as one of the most notable human rights violations within all societies. The gesture that the HoC shows it is good because engaging with the communities does not only mean the university deals with academics only, it is also interested in the background of where their students come from. I consider my self as someone who is ambition, driven and goal-oriented, therefore in 5 years to come I would love to get an opportunity to work, be more skilled, experienced and develop professionally in the logistics industry.

#### VALUES:

- ▶ Gaining more knowledge, and learning new skills.
- ▶ Volunteer work/Community involvement.
- ▶ Active listening skills.
- ▶ Positivity and a supportive and motivating approach.
- ▶ Gaining experience in logistics industry.

#### INTERESTS:
