EJOLTS focuses on making public living-theories of practitioner-researchers. Living-theories are the values-based 'explanations of practitioner-researchers for their educational influences in their own learning, the learning of others and the learning of social formations' (Whitehead, 1989.)

The values at the heart of Living Educational Theory research are the life-enhancing values that give meaning and purpose to the lives of individuals and groups and contribute to the flourishing of humanity.

Our community is continually growing. Meet some members by visiting their living-posters on this page and more by visiting <http://ejolts.net>. We hope you might feel inspired to join us.
