## Educational Journal of Living Theories <https://ejolts.net/>

Here you will find details of the research passions and interests of members of the EJOLTs Editorial Board and a few of the many EJOLTs peer-reviewers and authors. Visit the archive of the journal's freely accessible papers, where past can be brought into the present with the hope of enhancing a future where Humanity flourishes.

EJOLTs focuses on making public living-educational-theory research of practitioner-researchers. Living-educational-theories are the valid values-based 'explanations of practitioner-researchers for their educational influences in their own learning, the learning of others and the learning of social formations' (Whitehead, 1989.)

The values at the heart of all Living Educational Theory research are the life-enhancing values that give meaning and purpose to the lives of the practitioner-researcher and contribute to the flourishing of humanity.
