Nokwanda Biyase

email – nokwandab@dut.ac.za

My name is of African origin,

the 'No' the prefix means 'mother of' in IsiZulu, & 'kwanda' means to increase or plenty

Area of Expertise: Quality, Size & Fit, Clothing Production, Clothing Retail, Supply Chain

I have worked in clothing manufacturing & retail for 11 years. Worked as Quality Auditor, Garment Technologist and Quality Team Leader. My biggest ambition is to educate, upskill and contribute to rebuilding the clothing industry in South Africa. I am an advocate for innovation, continuous improvement, agility and adaptability, which are key in reviving and rebuilding the industry and economy.

I believe the best place to do that is within the Education system which is why I joined the **Durban University Of Technology** as a Lecturer.

I am a true African, I have “Ubuntu” embedded as part of my heritage. I carry that crown with pride in my daily life. I shall never forget that “**umuntu ngumuntu ngabantu**” I have had a project close to my heart since 2014 where I raise funds for donations towards school shoes for the kids I need. Links below for organisations I support:
