Wellbeing into Elderhood

An exploration of educational leadership
In the context of Living Global Citizenship

My Search for a New Narrative Begins Here:

1st May 2020

I used to find the thoughts of creating a living poster quite daunting - that was, until I recognised the benefit in creating a physical poster. Curiously, I find the act of creating a poster both a mindful and mindless activity. The process enables me to include what I consider to be private and personal without giving my reader unnecessary content and allows me to include what doesn't need to be shared alongside fragmented snippets that allude to my past profession. This is poster number 3 (which includes images of posters 1 (2016) and 2 (2019)), is assisting my preparation to host a third gathering of living theory researchers on 27th June 2020. The following website is to support the preparation for the gathering and is open to other Living Theory researchers (please note it is a work in progress):
