

Living Educational Theory Research group

Professional educators and students in HE working together to research their professional educational practice to understand, improve and explain it and publish the results of their high quality research to impact on policy and practice. To join the group email Amanda or Iain and send your living-poster to jack@livingtheory.org or marie_huxtable@yahoo.co.uk

Members of this group are located in different departments in University of Cumbria, which include:

- The Learning, Education & Development Research Centre
- Institute for Leadership and Sustainability
- Department of Business, Law, Policing and Social Science
- Department of Health, Psychology and Social Studies
- Department of Nursing, Health and Professional Practice

Journal of Practitioner Research in Higher Education

This refereed journal is produced by the University of Cumbria's Academic Quality and Development (AQD) service. It was established in order to develop research into reflective practice and to encourage both experienced and early career researchers to share their research with a wider academic audience. Further information and the ability to search and review current and previous articles is [available here](#).
