Framework

Teaching the Mixed-Age Group of Class

I was born in an islamic family, my parents are the non-formal islamic teacher. This situation makes me feel close to 'teaching activities' since i was child. I remember, my first time teaching activity is started when i was in elementary school at the mix-aged group class.

The Experiences
I Interested in to
excavate in this
transforming
research...

I was a member of choir in my High School and the students of music class in Elementary Teacher Education last semester.

It makes me experienced as a students of a differentiated learning

UDL Media Creator

Currently, me and my friends have applied a sustainable waste management educational application in Elementary School. The app is build by the commitment of Inclusivity and Differentiated Learning
