

# How My Experience Shaped Me

zeni.21046@mhs.unesa.ac.id

ISLAMIC  
EDUCATION  
TECH

I was born in an islamic family, my parents are the non-formal islamic teacher. This situation makes me feel close to 'teaching activities' and 'islamic context' since i was child. I remember, my first time teaching activity is started when i was in elementary school and that's where my interest in education especially in universal design learning has began.

My Interest

## What are My Currently Activities?

### Being Part of the ETE Student's Community

I am being the head of Communication and Information department. It shaped me being the one who is really close to technology and social media use.

### Volunteering in Student's Creativity Program

Currently, me and my friends have done a volunteering program which is applied a sustainable waste management educational application in Elementary School.
